

# CROSSBOW

- ACCU-CUT ADVANTAGE**
- ◆ Beltless load cradle
  - ◆ High speed cutter
  - ◆ Variable speed control
  - ◆ On-site training

**A full featured machine that will improve the bottom line of any company by saving time and money.**

- ◆ One person can unroll, inspect, measure, cut, reverse roll and wrap all your carpet and vinyl simply and accurately.
- ◆ Dual, independent variable speed control allows the user to set their own comfortable speed or slow down the machine for inspection.
- ◆ The Crossbow's steel frame incorporates laser cut precision and is welded, not bolted, providing you with the strongest and most durable machine frame available.
- ◆ Totally enclosed motors operate on 110 volt power allowing the Crossbow to be used any place in your warehouse.
- ◆ The Crossbow can easily be moved on it's industrial strength casters. Engage the lifting brakes to raise the machine off the floor and keep it stationary.
- ◆ Wrap around foot cable control provides the operator with a way to engage the rollers from the front or side of the machine. Makes wrapping and taping rolls simple.

**“Your complete source for floor covering cutting and merchandising equipment.”**

The Crossbow's convenient fold-in cradles will minimize the floor space required.

At 48 inches wide the Crossbow will take up little more space than one large roll!

**SPACE SAVING**

Open-ended cradle design is simple to load/unload and will accommodate larger rolls.

The flip up cutting bar extension gives you the ability to cut, measure and roll up 15 foot wide material!

**OPEN-ENDED CRADLES**

The digital foot/inch counter is easily programmed with the desired cut size and will stop automatically.

The operator can inspect the material instead of watching the counter!

**ACCURATE**

Dual, independent variable speed control will speed up or slow down the machine.

There is a separate speed control for both the load and roll-up cradle allowing the operator to have better tracking control!

**VARIABLE SPEED**

**FAST, STRAIGHT CUTS**

Patented, "Quicker than Air", two direction cable cutter uses standard blades and applies pressure to the material being cut.

Get a straight, clean cut every time!

**REVERSE ROLL**

Rolling carpet or vinyl pile/pattern side out is a simple one person, one step process.

Keep your remnants clean and easily wrap them for display!

**SIMPLE TO OPERATE**

Wrap around foot cable control, spring loaded roll up arm and dumping mechanism provide for ease of use.

All are standard features on the Crossbow!

**ON-SITE TRAINING**

We deliver most machines with our own trucks and drivers to ensure that you receive proper training.

We will not leave the machine unless you are totally satisfied!

**SPECIFICATIONS:**

POWER: 110 volts / 60 hertz / 15 amps

BLADES: uses standard slotted, double edge blades

SIZE: 6' 6" W x 15' 7" L x 3' 6" H

LIMITED WARRANTY: 3 years parts, 1 year labor

Meets all UL and CSA safety standards.
