

*This compact machine offers pneumatically tilting cradles on the load side and the roll up side. Driven load side cradle, roll up cradle and pneumatically controlled roll up arm guarantee daylong operation without any strain for the operator.*

## Features

- ◆ **Foot cable control** – allows for operation away from the control panel – great for wrapping or taping a roll
- ◆ **Simple operation** – directional switches, cutter button and PLC interface provide user friendly controls
- ◆ **Circular cutter blade** – makes thousands of cuts before needing to be changed and provides a clean, straight cut

## **SIZE**

*Height..... 3' 6"*  
*Width..... 4'*  
*Length..... 8'*

## **AIR & POWER REQUIREMENTS**

*Air compressor to provide 120 PSI  
208V, Single Phase, 15 Amp*
