

# J-2 Key Features

## One Person Operation

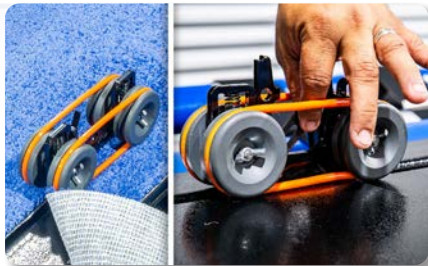

Wrap-around foot cable control, spring-loaded roll-up arm, speed control, auto-run feature, and open-ended cradles provide for ease of use. All are standard features on the J-2!

## Space Saving Design

The J-2's convenient fold-in cradles minimize the floor space required. At 48 inches wide, the J-2 can easily be stored under your storage rack!

## Fast, Straight Cuts

Patented, two-direction, chain-driven cutter uses standard blades and applies pressure to the material being cut. Get a straight, clean cut every time!

## Reverse Roll

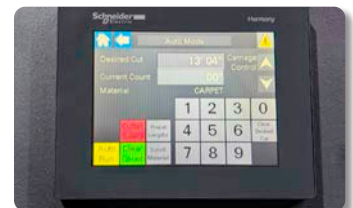

Rolling carpet or vinyl pile/pattern side out is a simple one-person, one-step process. Keep your remnants clean and easily wrap them for display!

## User Friendly Controls

Directional switches control the rollers and cutter. The yellow push buttons activate them. Speed selection switch, easy-to-use PLC interface, and emergency stop button. An auto-run feature makes operating the machine even simpler!

## Touch Screen PLC Control

Advanced control system includes a foot & inch counter, preset cut storage system, security keypad, multiple product settings, and more. The machine will automatically stop precisely at the programmed length!

## Cut Piece Removal

All Accu-Cut machines are equipped with a cut piece dumping mechanism to offload your cut length. Make multiple cuts off of one roll without using your forklift to remove the cut length!

## Dual Speed Control

The dual speed control allows users to back-roll remnants neatly and tightly around a core.
