

This dynamic machine features pneumatically tilting cradles on both the load and roll-up sides. It measures, rolls, and cuts hard-surface rolled goods up to 2 meters wide, ensuring daylong operation without any strain on the operator.

- **Foot Cable Control:** Enables operation away from the control panel, ideal for wrapping or taping a roll
- **Simple Operation:** Directional switches, cutter button and PLC interface provide user friendly controls
- **Circular Cutter Blade:** Makes thousands of cuts before needing replacement and provides a clean, straight cut

Specs: Dimensions: 9'6" L x 5'4" W x 4'5" H (2.90m x 1.63m x 1.35m)
Weight: 1492 lbs (676.91 kg)
