

CROSSBOW

A full featured machine that will improve the bottom line of any company by saving time and money.

Accu-Cut Advantage

- Beltless load cradle
- High speed cutter
- Variable speed control
- Auto-Stop foot & inch counter

- ◆ One person can unroll, inspect, measure, cut reverse roll and wrap all your carpet and vinyl simply and accurately.
- ◆ Automatic variable speed control allows the user to choose a comfortable speed or slow down the machine for inspection.
- ◆ The Crossbow's steel frame incorporates laser cut precision and is welded, not bolted, providing you with the strongest and most durable machine frame available.
- ◆ Foot and inch electronic counter automatically slows the machine down then stops precisely at the programmed measurement.
- ◆ The Crossbow can easily be moved on its industrial strength casters. Engage the lifting brakes to raise the machine off the floor and keep it stationary.
- ◆ Wrap around foot cable control provides the operator with a way to engage the rollers from the front or side of the machine. Makes wrapping and taping rolls simple.

SERVICE ♦ QUALITY ♦ INTEGRITY

A CCU-CUT Brokie International®

CROSSBOW

Patented, two direction, chain driven cutter uses standard blades and applies pressure to the material being cut.
Get a straight, clean cut every time!

FAST, STRAIGHT CUTS

ADVANCED VARIABLE SPEED

'Infinite' speed control dial directs the variable frequency drives which automatically adjust each cradle to the proper speed.
This advanced feature makes the Crossbow even more user friendly!

Rolling carpet or vinyl pile/pattern side out is a simple one person, one step process.
Keep your remnants clean and easily wrap them for display!

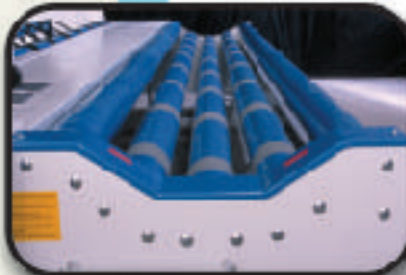

REVERSE ROLL

ONE PERSON OPERATION

Wrap around foot cable control, spring loaded roll up arm and cut piece dumping mechanism provide for ease of use.
All are standard features on the Crossbow!

The Crossbow's open ended, beltless load cradle holds even the largest rolls. The steel rollers center the material in the cradle.
This helps to ensure the material rolls up straight and tight every time!

BELTLESS LOAD CRADLE

AUTO-STOP COUNTER

Electronic foot and inch counter is easily programmed with the desired cut size.
The machine will automatically stop precisely at the programmed length!

All Accu-Cut machines are equipped with a cut piece dumping mechanism to off load your cut length.
Make multiple cuts off of one roll without using your forklift to remove the cut length!

CUT PIECE REMOVAL

INSPECT MATERIAL

Material can easily be inspected as it travels across the tabletop.
Inspect the carpet and vinyl before it goes out the door!

SPECIFICATIONS:

POWER: 220 volts - single phase / 60 hertz / 15 amps
BLADES: standard, slotted, double edge blades
SIZE: 6' 8" wide x 15' 8" long x 3' 3" high
LIMITED WARRANTY: 3 years parts, 1 year labor

Meets all UL and CSA safety standards.
