

# J-2

**Our lowest priced full function machine.**

**Why cut on the floor when you can purchase a durable, low cost j-2?**

### Accu-Cut Advantages

- Two speed settings
- Space saving
- High speed cutter
- Auto stop foot & inch counter

- ◆ One person can unroll, inspect, measure, cut, reverse roll and wrap all your carpet and vinyl simply and accurately.
- ◆ The j-2's steel frame incorporates laser cut precision and is welded, not bolted, providing you with the strongest and most durable machine frame available.
- ◆ PLC control includes multiple preset cut storage and product settings. Foot and inch counter automatically slows down the machine then stops precisely at the programmed measurement.
- ◆ We have designed an affordable cut and roll machine that is very reliable and extremely simple to operate.
- ◆ The j-2 takes up little space and is simple to move on its industrial strength casters. Lifting brakes keep the machine stationary while in use.
- ◆ Wrap around foot cable control provides the operator with a way to engage the rollers from the front or side of the machine. Makes wrapping and taping rolls simple.

**1-800-ACCU-CUT**

The logo features a blue diamond shape containing a white letter 'A'. To the right of the diamond, the word 'ccu-CUT' is written in a bold, blue, sans-serif font. Below 'ccu-CUT', the words 'Brockie International' are written in a smaller, black, cursive script font.

**J-2**

Wrap around foot cable control, spring loaded roll up arm, speed control, auto run feature and open ended cradles provide for ease of use.

All are standard features on the J-2!

**ONE PERSON OPERATION**

Directional switches control the rollers and cutter - the yellow push buttons activate them. Speed selection switch, easy to use PLC interface and emergency stop button. An auto-run feature makes operating the machine even simpler!

**USER FRIENDLY CONTROLS**

**FAST, STRAIGHT CUTS**

Patented, two direction, chain driven cutter uses standard blades and applies pressure to the material being cut. Get a straight, clean cut every time!

**CUT PIECE REMOVAL**

All Accu-Cut machines are equipped with a cut piece dumping mechanism to off load your cut length. Make multiple cuts off of one roll without using your forklift to remove the cut length!

**SPACE SAVING DESIGN**

**REVERSE ROLL**

The J-2's convenient fold-in cradles minimize the floor space required. At 48 inches wide the J-2 can easily be stored under your storage rack!

**PLC CONTROL**

Rolling carpet or vinyl pile/pattern side out is a simple one person, one step process. Keep your remnants clean and easily wrap them for display!

Advanced control system includes a foot & inch counter, preset cut storage system, security keypad, multiple product settings and more.

The machine will automatically stop precisely at the programmed length!

#### SPECIFICATIONS:
